

UNITED STATES GOVERNMENT

Memorandum

TENNESSEE VALLEY AUTHORITY

TO : J. R. Parrish, Director of Engineering Design, 505 UB-K

FROM : E. F. Thomas, Director of Power Production, 1005 EB-C

DATE : December 19, 1972

SUBJECT: JOHNSONVILLE STEAM PLANT - RELEASE OF ABANDONED ASH DISPOSAL PONDS A AND B TO E.I. DU PONT DE NEMOURS & COMPANY, INCORPORATED

This concerns the preparation of the dike slopes and the surfaces of the abandoned ponds to release to Du Pont the land on which the ponds are located. In previous discussions among various members of TVA and Du Pont representatives, a general agreement concerning the condition in which the ponds are to be left has been reached. A preliminary drawing entitled "Site Grading at Ash Disposal Area" was prepared in the Civil Design Branch. It has been reviewed by members of this division as well as representatives of Du Pont, and it has been agreed that the ponds would be prepared for release to Du Pont in accordance with that drawing.

We request that the drawing be completed and issued so that it can be used to prepare the ponds for their release to Du Pont. We also request that you furnish an estimate of the quantities of excavation necessary to bring the dike slopes into conformance with the drawings. The quantities are necessary for our use in preparing cost estimates. We should like to have the drawing and the estimate as soon as you can conveniently furnish them. We hope to have the ash excavation work completed in time to seed the slopes in the coming spring.
